

Appendix G: Phase I Environmental Site Assessment

PHASE I ENVIRONMENTAL SITE ASSESSMENT REPORT

Tule River Tribe – Shan King-Hwy 190-Hartsell Property,
Tulare County APN's 284-760-001, 284-760-003,
284-760-006, 284-770-005, 284-770-006, and
284-770-007
Tulare County, California

Prepared for: Tule River Tribe

August 2025

Executive Summary

This Phase I Environmental Site Assessment (Phase I ESA) has been prepared by Acorn Environmental in conformance with the Bureau of Indian Affairs (BIA) guidelines (Indian Affair Manual 59 IAM 5-H) and within the scope and limitations of the American Society for Testing and Materials (ASTM) Standard Practice E 1527-21 for an approximately 107.68-acre property (Subject Property) located along Highway 190 in rural Tulare County, California (identified as Tulare County Assessor's Parcel Numbers (APNs) 284-760-001, 284-760-003, 284-760-006, 284-770-005, 284-770-006, and 284-770-007. The Subject Property is currently owned by the Tule River Tribe. The Subject Property is shown relative to surrounding physical features in **Figures 1, 2, and 3**.

This Phase I ESA was requested pursuant to a fee-to-trust application by the Tribe and to be used by the BIA to complete the trust conveyance process. The Subject Property is currently a mix of undeveloped open space, orchard agriculture, and residential development. Owner/User-Provided information and historical physical setting resources reviewed indicated the Subject Property was historically used for agricultural purposes. A portion of the Subject Property, APN 284-760-003, contains two residential dwelling units and a water impoundment (pond). Adjacent parcels have been developed with various agricultural, residential, and commercial uses.

No environmental liens or active use limitations (AULs) were found in association with the Subject Property. No indication or evidence of previous, ongoing or the material threat of a hazardous material or petroleum hydrocarbon release was detected during the investigation and implementation of this Phase I ESA. The Subject Property was not listed in any of the environmental databases queried. Three listed sites are in the vicinity of the Subject Property.

Data Gaps

This Phase I ESA has been prepared in conformance with ASTM Standard Practice E 1527-21. There were a few minor data gaps associated with historical information sources. However, a combination of other data sources was available such that no significant data gap existed, and the historical research objectives were achieved. There were no data gaps that significantly affected the ability of Acorn Environmental to identify recognized environmental conditions associated with the Subject Property. Limitations and exceptions are discussed in Sections 1.4 and 5.1.

Findings

This Phase I ESA revealed no evidence of historical or current recognized environmental conditions, or *de minimis conditions*, in connection with the Subject Property pursuant to the ASTM Practice E1527-21.

Recommendations

Records review, database searches, site investigation, and interviews failed to identify any recognized environmental conditions in connection with the Subject Property. Therefore, no further hazardous materials investigations of the Subject Property are recommended.

Section 1 | Introduction

1.1 LOCATION AND LEGAL DESCRIPTION

The Subject Property is located to the immediate south of State Route 190 (Highway 190) approximately 6 miles east of the City of Porterville, Tulare County, California, as shown in Figure 1 and Figure 2. An aerial photograph of the Subject Property is shown in Figure 3. The Subject Property, totaling 107.68 acres, is identified as Tulare County APNs 284-760-001, 284-760-003, 284-760-006, 284-770-005, 284-770-006, and 284-770-007. The topography of the Subject Property ranges from 1,035 feet above mean sea level (amsl) along the ridgeline along the southeastern property boundary to 685 feet amsl within a drainage at the northeastern corner of the site. Access to the Subject Property is provided via private roadways along Highway 190.

1.1.1 Subject Property Characteristics and Current Use

The Subject Property is a mix of undeveloped open space, active citrus agriculture, and rural residential. An approximately 3,500 square-foot (sf) residential dwelling unit and a secondary prefabricated residential structure are located on the southeast corner of the Subject Property. The dwelling unit was occupied when purchased by the Tribe in 2023. The active citrus orchard is located along Highway 190 with open space currently used for cattle grazing in the south and eastern portions of the Subject Property. The 6 parcels in the Subject Property are all zoned “Planned Development” by Tulare County (Tulare County, 2023).

1.1.2 Current Use of Adjoining Properties

The parcels surrounding the Subject Property are similar in characteristics as the Subject Property with open space, rural residential and agriculture. Properties are zoned “Planned Development” and “Exclusive Agriculture” by Tulare County (Tulare County, 2023). The nearest developed site, located on Tule River trust land, directly to the northeast of the Subject Property boundary, is developed as a convenience store, fuel station, and tribal development structure. A rural residential dwelling, located on APN 284-760-002 is located within a parcel surrounded on three sides by the Subject Property. Cattle grazing and active agricultural activities are ongoing on the Tribal trust property and fee properties adjacent to the Subject Property.

1.2 PURPOSE

This Phase I Environmental Site Assessment (Phase I ESA) has been prepared in conformance with Bureau of Indian Affairs (BIA) guidelines (Indian Affairs Manual 59 IAM 5-H) and the American Society for Testing and Materials (ASTM) Standard Practice E 1527-21, which specifies the appropriate inquiry requirement for the innocent landowner defense under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and the U.S. Environmental Protection Agency (EPA) (40 CFR 132) All Appropriate Inquiry (AAI) regulations (ASTM, 2021). According to AAI standards, the objective of the inquiry is to identify conditions indicative of releases or threatened releases of hazardous substance, pollutants, contaminants, petroleum and petroleum products, and controlled substances to the Subject Property.

Figure 2
SITE AND VICINITY

Source: Cornerstone Engineering; ESRI World Imagery

Figure 3
AERIAL OVERVIEW

The purpose of this Phase I ESA is to comply with BIA guidelines Indian Affairs Manual 59 IAM 5-H and identify Recognized Environmental Conditions (RECs), as defined by Section 1.1.1 of ASTM E 1527-21, which may affect future uses or pose a threat to site occupants of the Subject Property.

The term REC refers to the presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of release of any hazardous substances or petroleum products within a property into structures or the ground, groundwater, or surface water. The term REC is not intended to include *de minimis* conditions that generally do not present a material risk of harm to public health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Historical Recognized Environmental Conditions (HREC) refers to an environmental condition, including a past release of any hazardous substance or petroleum product that has since been remediated, which in the past would have been considered a REC; and the term Controlled Recognized Environmental Conditions (CREC) refers to hazardous substance releases that have been partially addressed through remediation but where some contamination remains in place under certain risk-based restrictions or conditions. Evaluation for HRECs and CRECs are included in this Phase I ESA.

The term *de minimis* condition is defined as “a condition related to a release that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be *de minimis* are not RECs nor CRECs.”

1.3 SCOPE OF WORK

Acorn Environmental was contracted by the Tribe to conduct a Phase I ESA in conformance with BIA guidelines (Indian Affairs Manual 59 IAM 5-H) and ASTM Standard Practice E 1527-21. As scoped, this Phase I ESA includes the following tasks:

- Review of previously prepared environmental documentation/ESAs for the Subject Property,
- Site reconnaissance inspection and visual reconnaissance of the Subject Property and adjacent properties to document the setting and identify potential sources of contamination,
- Review of relevant database listings of hazardous material sites, waste generators, and underground storage tanks (UST),
- Review of historical records and physical setting information for the Subject Property and surrounding area to identify past land use activities and hydrogeologic conditions and to evaluate the risk associated with identified activities,
- Interviews and questionnaires with owners, operators, occupants, and/or local government officials with knowledge of current and historical uses of the Subject Property,
- Report documentation to indicate findings, data gaps, conclusions, and recommendations, if needed.

Physical testing of soil or groundwater is not within the scope of this Phase I ESA. Neither testing for asbestos-containing building materials nor lead-based paint surveys is included as part of this assessment.

1.4 ASSUMPTIONS, DEVIATIONS, LIMITATIONS, AND EXCEPTIONS

This Phase I ESA is prepared through a best-effort collection and interpretation of readily available information prepared consistent with the industry standards for completion of a Phase I ESA.

Acorn Environmental made the following assumptions in the preparation of the Phase I ESA:

- Groundwater Flow Direction – direction of groundwater flow was assumed based on information obtained (EDR report), topography, and previously prepared technical studies. The actual flow of localized groundwater may be influenced by factors beyond the scope of this assessment. Subsurface investigation would be necessary to determine site-specific flow direction.
- Regulatory Agency Information –all information provided by EDR, CalEPA, and local records regarding the regulatory status was considered to be complete, accurate, and current.
- Questionnaire/Interviews –all information provided through questionnaires and interviews was considered to be complete, unbiased, and provided in good faith.

No Phase I ESA can completely eliminate uncertainty regarding the potential for RECs in connection with a property, nor can it eliminate future hazards. Conformance of this Phase I ESA with ASTM Standard Practice E 1527-21 will reduce, but not eliminate, uncertainty regarding the potential for RECs in connection with the Subject Property. While every effort has been made to discover and interpret available historic and current information regarding the Subject Property within the time available, the possibility of undiscovered contamination remains.

Acorn Environmental, as an impartial and independent contractor, has completed this Phase I ESA in accordance with ASTM E 1527-21 and in accordance with the prevailing standard of care for completing such assessments at this time. Acorn Environmental shall not be subject to any express or implied warranties whatsoever. There are no special terms or contractual conditions for this Phase I ESA. There are no limiting conditions or deviations from the ASTM E 1527-21 standards in the preparation and no client/User-imposed constraints.

Any data gaps are listed in Section 5.1.

Section 2 | Interviews and User Provided Information

Section 2 presents a summary of the information on the Subject Property and surrounding area provided to Acorn Environmental by the Owner/User via a standard property questionnaires and interviews.

2.1 USER/OWNER QUESTIONNAIRE AND OWNER PROVIDED INFORMATION

The Owner questionnaire, included in **Appendix H**, was provided to the Tribe on September 26, 2023 and completed on Tribal Representative Vernon Vera on June 20, 2024. The questionnaire was prepared consistent with ASTM E 1527-21, and also requested the following documents, if available, from the User/Owner:

- Title reports
- Previous environmental site assessments or environmental compliance audit reports
- Environmental permits or hazardous waste generator notices/reports
- Registrations for aboveground or underground storage tanks
- Location of septic systems, oil wells, monitoring wells, or water wells
- Registrations for underground injection systems
- Material Safety Data Sheets;
- Community Right to Know Plans or Safety, Preparedness, and prevention Plans; Spill Protection, Countermeasures, and Control Plans
- Hazardous Material Business Plans
- Geotechnical studies or hydrological studies
- Notices or other correspondence from any government agency relating to past or current violations of environmental laws concerning the Property or relating to environmental liens encumbering the Property
- Risk assessments
- Recorded Activity Use Limitations
- Proceedings regarding hazardous substances and petroleum products including any pending, threatened or past: litigation; administrative proceedings; or notices from any governmental entity regarding possible violations of environmental laws or other possible liability related to hazardous substances or petroleum products.

The representative had no knowledge of any environmental liens, land use restrictions, or recognized environmental conditions associated with the Subject Property.

2.1.1 Specialized Knowledge

No specialized knowledge or actual knowledge that is material to recognized environmental conditions in connection with the Subject Property was provided by the Owner questionnaire.

2.2 TITLE RECORDS, ENVIRONMENTAL LIENS, ACTIVITY AND USE LIMITATION

Through the fee-to-trust process the Tribe has commissioned Chicago Title to provide an ALTA Commitment Survey dated August 29, 2023 for the Subject Property which identifies a chain of title, title liens and any encumbrances which may indicate current or past hazardous materials involvement (Chicago Title, 2023 (**Appendix I**)). No environmental liens or active use limitations were identified from title review, interview process, or County records review.

2.3 PROPERTY REPRESENTATIVE INTERVIEWS

Acorn Environmental interviewed a representative of the Tribe, Mr. Brian Rueger, via phone correspondence in August 2023. Details from the interview are provided below and are incorporated by reference throughout this report.

Per conversation, the Tribe grazed cattle on eastern portions of the Subject Property and maintains active citrus agriculture on the non-residential portions of the Subject Property. The representative has no knowledge of any past spills or pollution events, major refueling activities, automobile repair activities, or use of underground storage tanks (USTs) or aboveground storage tanks (ASTs) at the Subject Property or in the immediate vicinity (Rueger, 2023). The Tribe recently completed the purchase of APN 284-760-003 in early 2023.

Acorn Environmental interviewed Danae Hartsell, the previous owner of APN 284-760-003, on March 1, 2023, during the production of the Acorn Environmental March 2023 Phase I ESA – Hartsell Property. Per conversation with Ms. Hartsell, APN 284-760-003 was first developed as a rural residential unit in 2004 and has not been used for any other purpose since the purchase and development of the residential unit. A secondary residential unit, a prefabricated structure, was added to the property in 2022.

The owner has no knowledge of any past refueling activities, automobile repair activities, or use of underground storage tanks (USTs) or aboveground storage tanks (ASTs) at the Subject Property.

Section 3 | Site Reconnaissance

3.1 OBJECTIVE

The objective of the site reconnaissance is to identify the occurrence of potential current or historic hazardous materials involvement within or in the vicinity of the Subject Property. Signs of possible hazardous materials or petroleum involvement would include any indications of USTs existing on the Subject Property; stained soils and/or unusual odors originating from the Subject Property; indications of any excavation or removal of soils, including patched asphalt and large debris piles; and other obvious signs of hazardous materials involvement.

3.2 SITE OBSERVATIONS

David Sawyer (environmental scientist, Acorn Environmental) conducted a site reconnaissance inspection of the Subject Property and a visual reconnaissance of adjacent properties on May 3, 2023 and September 5, 2023. All accessible portions of the Subject Property were observed by a pedestrian survey. **Appendix G** provide photographs that show the site conditions at the time of the site visit. Notable features and environmental conditions are summarized below and located on **Figure 4**:

- The Subject Property is partially developed with a rural residential property and orchard agriculture. The remainder is in a natural state with grassland open space with cattle grazing on APNs 284-770-007 and 284-760-006. A pond structure is located within APNs 284-760-003 and 284-760-001.
- Groundwater wells provide irrigation to the orchards and a domestic well services the residential property on APN 284-760-003. A septic system was detected during the site reconnaissance on APN 284-760-003.
- No stained soil, distressed vegetation, or unusual odors was noted during the site reconnaissance.
- Highway 190 is a maintained roadway with access to the Subject Property via an access roadway along the boundary of APN 284-760-001. Additional gates to access the property are located along Highway 190.
- There was no visible evidence of large-scale hazardous materials storage or evidence of past releases observed within the Subject Property. Approximately 5 paint containers were noted in two locations on APN 284-760-003. However, no evidence of current or past releases of contained materials was noted. Therefore, this is not defined as a *de minimis condition*.

Site observations are summarized in **Table 1**.

Source: ESRI World Imagery

Figure 4
SITE FINDINGS

TABLE 1: SITE OBSERVATIONS

Site Settings	Observations
Current Uses of Property	Residential/Agriculture/Cattle Grazing
Past Uses of Property	Agriculture/Cattle Grazing
Current Uses of Adjacent Property	North: Highway 190 with residential development and open space to the north.
	South: Open space and orchard agriculture
	East: Retail/gas fueling
	West: Residential/open space
Current/Past Uses in the Surrounding Area	Rural residential/agriculture
Geologic, Hydrogeologic, Hydrologic, and Topographic Conditions	Topography consists of slight lobe from north to south towards the Campbell Creek and Success Lake
General Description of Structures	Approximate 3,500 sf dwelling unit and 1,000 sf prefabricated dwelling unit
Roads	Internal paved roadway connecting dwelling units to Highway 190. Internal dirt access roads accessing orchard agriculture. Gravel roadway accessing adjacent residential parcel through APN 284-770-005.
Potable Water Supply	No public water system
Sewage Disposal System	No public sewage disposal system
Waste Removal Services	Waste services to APN 284-760-003 provide by private Waste Management
Possible Hazardous Substances and Petroleum Products in Connection with Identified Uses	Approximately 5 paint containers were noted in two locations on APN 284-760-003
Storage Tanks and Associated Piping	Above ground propane tank on APN 284-760-003
Odors	No strong, pungent, or noxious odors were observed.
Pools of Liquid	No pools or liquid were observed.
Drums (5 gal to 55 gal containers should be described)	No drums were observed.
Potential Hazardous Substances and Petroleum Products Containers	Approximately 5 paint containers were noted in two locations on APN 284-760-003
Unidentified Substance Containers	No containers were observed.
Polychlorinated Biphenyls (PCB)	No PCB-containing equipment/electrical service is provided.
Pits, Ponds, or Lagoons	Pond structure located in center of Subject Property.
Stained Soil or Pavement	No stained soil or pavement was observed.
Stressed Vegetation	No stressed vegetation was observed.
Solid Waste	No significant amount of trash on the Subject Property
Waste Water	No wastewater discharge or standing pools were observed.

Site Settings	Observations
Wells	Onsite domestic groundwater and irrigation wells provide water for orchard and dwelling units
Septic System	Septic system on APN 284-760-003
Stormwater drainage	No developed stormwater system outside of roadside ditches along Highway 190.

3.3 ADJACENT PROPERTIES OBSERVATIONS

A survey of adjacent properties was performed to the extent possible without trespassing during the May 3, 2023 and September 5, 2023 site visits. The purpose was to identify land uses of adjacent properties and determine if the current land use of the adjacent properties would affect the current and/or future planned use of the Subject Property. Conditions observed on the adjacent land uses are described below.

- North: Consistent traffic flow along Highway 190 in east and west direction. One occupied residential unit to the north of APN 284-770-005 across Highway 190.
- South: Active cattle grazing on adjacent properties with ranching/agricultural barn to the southwest.
- West: Undeveloped open space
- East: Convenience store and fueling station to the immediate east on Tribal trust land.

Observations of adjoining-property uses do not indicate RECs to the Subject Property.

Section 4 | Records Review

This section summarizes the records review findings for the Subject Property and for adjoining and surrounding properties, including current use and development, physical setting, historical uses, and regulatory agency and database records.

4.1 PHYSICAL SETTING

The Subject Property is partially developed with two residential units and auxiliary structures, a water retention pond, orchard agriculture, and open space for cattle grazing. A water storage reservoir is in the central portion of the Subject Property and a portion of the South Tule Irrigation ditch transects the southwestern corner. The Subject Property slopes in a southwestern direction, with a high point of approximately 1,035 feet above mean sea level (amsl) along the southern border with a low point of approximately 685 feet amsl at the northwestern corner near Highway 190.

According to the California Department of Conservation, the rock stratigraphic unit of the Subject Property is mixed rock from the pre-Cenozoic era (California Department of Conservation, 2023). Friant and Coarsegold loams dominate the Subject Property, with well-drained; slow infiltration (**Appendix A**). No wetland features have been classified by the United States Fish and Wildlife (USFWS) National Wetlands Inventory (NWI) within the Subject Property (USFWS, 2023).

The Subject Property is located within Flood Zone X, which is identified by the Federal Emergency Management Agency (FEMA) as an area determined to be outside the 0.2 percent annual chance of flooding. A copy of the FEMA Flood Insurance Rate Map (FIRMette) is included in **Appendix F**. The Subject Property drains in a general northern direction with some water flowing towards the on-site reservoir and other waters flowing north towards Campbell Creek and Success Reservoir.

No historical Sanborn maps are available for the Subject Property and vicinity.

According to the Environmental Data Resources, Inc. (EDR), report (see **Appendix A**), there are 12 water wells within a 1-mile radius of the Subject Property. However, the well logs do not present groundwater depth data. Using groundwater monitoring data provided by the California Department of Water Resources, a groundwater monitoring well located approximately 3 miles northwest of the Subject Property indicated groundwater depth at 90 feet below ground surface in 2008 (DWR, 2023). Current data on groundwater depths in the immediate vicinity of the Subject Property were unavailable due to the lack of current data from area groundwater wells. Groundwater flow in the vicinity of the Subject Property is estimated to be in western direction due to topography (**Appendix A**).

4.2 HISTORICAL USE INFORMATION

The historic use of the Subject Property and adjoining properties was compiled through review of historical sources and reasonably ascertainable information pertaining to the Subject Property. Historical sources reviewed by Acorn Environmental included:

- Aerial photographs obtained from EDR and Tulare County or other public sources dated 1940, 1952, 1954, 1977, 1985, 1994, 2006, 2009, 2012, 2016, and 2020. Aerial photographs were of varying clarity (**Appendix B**).
- Topographic maps, obtained from EDR, included the 1903, 1909, 1937 Kaweah, the 1956 Success, the 1956, 1977, 2012, 2015, and 2018 E. Globe, the 1961, 1977, 2012, 2015, and 2018 Success Dam, and the 1957 Springville (**Appendix C**).
- Sanborn® Fire Insurance maps report obtained from EDR indicated the Subject Property was unmapped (Appendix D).
- Excerpts from historical city directories obtained from EDR for approximate 5-year intervals from 1959 through 2017 (**Appendix J**).
- Pertinent information provided during interviews with the User/Owner for the Subject Property, and others.

The historical resources reviewed during the preparation of the Phase I ESA are in general accordance with the requirements of ASTM 1527-21. Copies of the historical records obtained from the sources above are provided in attached Appendices. Historic aerial and topographic maps provided in the 2023 Acorn Environmental Phase I ESA for APN 284-760-003 have been included in this 2023 Phase I ESA. The 2023 Acorn Environmental Phase I ESA was prepared in accordance with ASTM E 1527-21. The use of prior assessment usage is appropriate in that Subject Property conditions and land ownership have not changed materially since the 2023 Phase I ESA was conducted in March 2023.

EDR's Sanborn report indicated that there is no coverage of the Subject Property, which is a minor data gap.

The following subsections provide the findings of the historical review.

4.2.1 Subject Property

The earliest historic physical record of development on the Subject Property is a 1985 aerial photograph, which shows the corral structure in the northeastern portion of the site. The 1994 aerial notes the development of the pond structure and the orchards along Highway 190. The main residential dwelling unit is first noted in the 2006 aerial. Historic topographic maps first show the development of a roadway adjacent to the Subject Property in 1956.

No visual clues, indicating possible recognized environmental conditions, were noted via the historic sources reviewed during the production of this Phase I ESA.

4.2.2 Adjoining and Surrounding Properties

The following is a summary of the historical use of the adjoining and surrounding properties based on Acorn Environmental review of the historical sources during this study.

North: Roadway noted to the north of the Subject Property on the 1904 topographic map with the development of Highway 190 noted on the 1957 topographic map. Rural residential property to the north between Subject Property and Campbell Creek found on 1904 topographic map to present.

South: Orchard/agriculture with sparse rural residential development. The 1985 and 1994 aerial maps indicated increased residential development to the south along Avenue 160/Success Valley Drive after 1985.

East: Undeveloped open space. The development of the adjacent Tribal convenience store and fuel station is first noted on the 2009 aerial photograph.

West: The Lake Success Mobile Lodge, located approximately 1,300 ft west of the western boundary of the Subject Property is first noted on the 1994 aerial photograph. The adjacent residential structure to the west is noted as developed in the 2006 aerial.

No RECs were identified base on the historical use of the adjoining and surrounding properties.

4.3 REGULATORY ENVIRONMENTAL RECORDS REVIEW

This section summarizes sources of environmental records in which the Subject Property is located. These sufficiently useful, accurate, and complete sources of environmental records pertaining to the Subject Property was reasonably ascertainable and were obtained pursuant to good commercial and customary practices.

4.3.1 Regulatory Agency Database Search

The regulatory agency database search was conducted by EDR on September 25, 2023, a computerized search firm that uses a geographic information system to plot locations of known storage tank sites and known sites of hazardous materials generation, storage, and/or contamination within the ASTM approximate minimum search distances. Although a site may be listed within a regulatory agency database search, the listed site may not currently be contaminated or affect the environmental quality of the Subject Property and therefore be considered a REC. The regulatory agency database search is only as accurate as the data and date the data entered into the regulatory agency-maintained database was last updated. If not reported to the appropriate regulatory agency, installation of USTs or hazardous materials releases would not be listed on the regulatory agency databases searched.

The complete list of reviewed regulatory agency databases, search distances, and results is provided in the Map Finding Summary section of the EDR radius map report included as **Appendix A**. The Subject Property is not listed in any databases queried by EDR. A table providing information on the closest, most pertinent, and relevant listed cases on and in the vicinity of the Subject Property is provided in **Table 2**.

4.3.2 California Environmental Protection Agency

Acorn Environmental reviewed public records for the Subject Property and any adjoining properties via the California Environmental Protection Agency public record request portal (CalEPA, 2023). No records are noted for the Subject Property or adjacent properties.

TABLE 2: DATABASE LISTINGS

Listed Site	Regulatory Databases	Finding
ADJACENT PROPOERTIES		
Eagle Feather Trading Post	Indian UST	NOT A REC
Located to the east of the Subject Property on Tule River Trust property, the Eagle Feather Trading Post is listed for underground storage tanks associated with an active fuel service station. Records note two 20,000-gallon gasoline tanks and a 20,000-gallon diesel fuel storage tank. No violations noted. Based on lack of violations, documented spills or discharges, the Eagle Feather Trading post is not considered a REC to the Subject Property.		
Barber #2	MINES MRDS	NOT A REC
Historic vein mining operation on adjacent property associated with copper and gold. Evidence of previous activity noted in 1992 U.S. Bureau of Mines records.		

According to the CalEPA portal, the historic Lake Success Mobile Station, located approximately 2,100 feet to the southwest at 30524 Highway 190 was listed as a LUST cleanup site associated with fuel tanks at a former gas station. The three 1,000-gallon UST were removed from the site in 1986 with an analysis of underlying soils indicating the evidence of TPH-G, TVH, and BTEX. Further sampling of soils and groundwater collected in 2010 indicated non-detect levels of contaminants. Tulare County Health and Human Services Agency closed the case and issued a Remedial Action Completion Certification in June 2010 (CalEPA, 2023B).

Based on the closed case, distance, and downgradient nature from the Subject Property, the Lake Success Mobile Station site is not considered a REC to the Subject Property.

4.3.3 Tulare County Public Records

Acorn Environmental submitted a public records request to Tulare County on July 28, 2023, for any Subject Property records maintained by the County health and environmental departments. Edem Agbleode, Environmental Health Specialist, responded via email on August 8, 2023 that Tulare County did not have any records pertaining to hazardous material involvement or storage for the Subject Property (Tulare County Environmental Health Division, 2023) (**Appendix H**).

4.3.4 Previous Environmental Studies

A Phase I ESA was previously prepared by Acorn Environmental in March 2023 associated with due diligence investigation during the purchase of APN 284-760-003 by the Tribe. Where appropriate this March 2023 Phase I ESA was reviewed to assist in investigation of historic site use (Acorn, 2023). The 2023 Acorn Environmental Phase I ESA was prepared in accordance with ASTM E 1527-21 and is relevant to the production of this Phase I ESA. The use of prior information is warranted and consistent with ASTM E 1527-21 to avoid undertaking duplicative assessment procedures.

Section 5 | Evaluation

5.1 ASTM SIGNIFICANT DATA GAPS

ASTM defines a data gap as a lack, of or inability to obtain, information required by this practice despite good faith efforts by the Environmental Professional to gather such information. Data gaps may result from incompleteness in any of the activities required by this practice, including, but not limited to site reconnaissance (for example, an inability to conduct the site visit), and interviews (for example, an inability to interview the key site manager, regulatory officials, etc.)

A data gap of greater than five years is present between historical information sources (historic aerials and historic topographic maps) and Sanborn Maps were not available. However, using the historical information sources available and the lack of land use changes, Acorn Environmental believes that a thorough site history could be constructed for the Subject Property. However, a combination of other historical data sources was available such that no significant data gap existed, and the historical research objectives were achieved. There were no deletions from the ASTM Practice E1527-21.

5.2 FINDINGS

Based on information gathered while conducting this Phase I ESA for the Subject Property (Tulare County APNs 284-760-001, 284-760-003, 284-760-006, 284-770-005, 284-770-006, and 284-770-007) in unincorporated Tulare County, California, the following conditions were observed:

- The Subject Property is developed with two residential dwelling, a water storage pond, and orchard agriculture. The remainder of the Subject Property is undeveloped open space currently used for cattle grazing.
- During the site reconnaissance inspection, there was no visible evidence of hazardous materials storage, use, or releases observed within the Subject Property. Minor amounts of general household hazardous materials (oils/paints/solvents) were noted in the residential dwelling on APN 284-760-003.
- Records reviewed found no environmental liens or AULs on the Subject Property.
- Database and records queries noted no listed cases of hazardous materials involvement on the Subject Property.

Pursuant to ASTM E1527-21, this assessment revealed no RECs in connection with the Subject Property.

5.3 CONCLUSIONS

This Phase I ESA has been prepared in conformance with ASTM Standard Practice E 1527-21. Any data gaps, exceptions to, or deletions from, this practice are described in **Section 1.4** and **Section 5.1** of this report.

Based on the site conditions during the May 3, 2023 and September 5, 2023 site reconnaissance inspections, owner/user questionnaires (**Appendix H**), EDR report (**Appendices A, B, C, D, and J**), and

records review, no RECs, CRECs, BECs, HRECs, or *de minimis* conditions, were identified in connection with the Subject Property.

5.4 RECOMMENDATIONS

Based on the findings and the scope of work of this Phase I ESA, no further investigation of the Subject Property is recommended at this time.

Section 6 | Report Authors

The undersigned declare to the best of their professional opinion that they meet the definition of Environmental Professional as defined in §312.10 of 40 CFR 312. David Sawyer, Site Assessor and Report Preparer, assembled this report under the professional supervision of Ryan Sawyer, AICP (American Institute of Certified Planners), who qualifies as an environmental professional (EP) as defined in the ASTM Standard E1527-21, and have the specific qualifications based on education, training, and experience to assess a property of the nature, and setting of the Subject Property. The signature of Ryan Sawyer, AICP appears below and her resume is included in **Appendix G**.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property. Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of state and tribal registered storage tanks

INDIAN UST: A listing of underground storage tank locations on Indian Land.

A review of the INDIAN UST list, as provided by EDR, has revealed that there is 1 INDIAN UST site within approximately 0.25 miles of the target property.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 06/22/2023	Source: EPA

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 06/22/2023	Source: EPA
Date Data Arrived at EDR: 07/06/2023	Telephone: N/A
Date Made Active in Reports: 07/24/2023	Last EDR Contact: 09/01/2023
Number of Days to Update: 18	Next Scheduled EDR Contact: 10/09/2023
	Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Date of Government Version: 10/15/1991

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425(e), sites may be deleted from the NPL where no further response is appropriate.

Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Data Release Frequency: Quarterly

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Date of Government Version: 06/22/2023	Source: EPA
Date Data Arrived at EDR: 07/06/2023	Telephone: 800-424-9346

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 07/24/2023	Source: Environmental Protection Agency
Date Data Arrived at EDR: 07/31/2023	Telephone: (415) 495-8895

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 07/24/2023	Source: Environmental Protection Agency
Date Data Arrived at EDR: 07/31/2023	Telephone: (415) 495-8895

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 07/24/2023	Source: Environmental Protection Agency
Date Data Arrived at EDR: 07/31/2023	Telephone: (415) 495-8895

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Federal institutional controls / engineering controls registries

LUCIS: Land Use Control Information System

LUCIS contains records of land use control information pertaining to the former Navy Base Realignment and Closure properties.

Date of Government Version: 05/25/2023	Source: Department of the Navy
Date Data Arrived at EDR: 05/31/2023	Telephone: 843-820-7326
Date Made Active in Reports: 07/24/2023	Last EDR Contact: 08/02/2023
Number of Days to Update: 54	Next Scheduled EDR Contact: 11/20/2023
	Data Release Frequency: Varies

US ENG CONTROLS: Engineering Controls Sites List

A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 05/22/2023	Source: Environmental Protection Agency
Date Data Arrived at EDR: 05/23/2023	Telephone: 703-603-0695
Date Made Active in Reports: 07/24/2023	Last EDR Contact: 08/21/2023
Number of Days to Update: 62	Next Scheduled EDR Contact: 12/04/2023
	Data Release Frequency: Varies

US INST CONTROLS: Institutional Controls Sites List

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 05/22/2023	Source: Environmental Protection Agency

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

PFAS ATSDR: PFAS Contamination Site Location Listing

PFAS contamination site locations from the Department of Health & Human Services, Center for Disease Control & Prevention. ATSDR is involved at a number of PFAS-related sites, either directly or through assisting state and federal partners. As of now, most sites are related to drinking water contamination connected with PFAS production facilities or fire training areas where aqueous film-forming firefighting foam (AFFF) was regularly used.

PFAS WQP: Ambient Environmental Sampling for PFAS

The Water Quality Portal (WQP) is a part of a modernized repository storing ambient sampling data for all environmental media and tissue samples. A wide range of federal, state, tribal and local governments, academic and non-governmental organizations and individuals submit project details and sampling results to this public repository. The information is commonly used for research and assessments of environmental quality.

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO: Facilities in Industries that May Be Handling PFAS Listing

Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

PFAS ECHO FIRE TRAINING: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facility's name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PART 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration's document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

AQUEOUS FOAM NRC: Aqueous Foam Related Incidents Listing

The National Response Center (NRC) serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. The spreadsheets posted to the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the ?Material Involved? or ?Incident Description? fields.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 11/16/2022

Date Data Arrived at EDR: 11/16/2022

Date Made Active in Reports: 02/06/2023

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.
Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Source: National Institutes of Health

Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on private school locations in the United States.

Daycare Centers: Licensed Facilities

Source: Department of Social Services

Telephone: 916-657-4041

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

GEOCHECK[®] - PHYSICAL SETTING SOURCE ADDENDUM

TARGET PROPERTY ADDRESS

KING- HARTSELL - 190 PROPERTY
30731 HIGHWAY 190
SPRINGVILLE, CA 93265

TARGET PROPERTY COORDINATES

Latitude (North):	36.086018 - 36° 5' 9.66"
Longitude (West):	118.886103 - 118° 53' 9.97"
Universal Transverse Mercator:	Zone 11
UTM X (Meters):	330181.3
UTM Y (Meters):	3994935.0
Elevation:	930 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	11998600 SUCCESS DAM, CA
Version Date:	2018
Southeast Map:	11998530 GLOBE, CA
Version Date:	2018

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General West

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

<u>Flood Plain Panel at Target Property</u>	<u>FEMA Source Type</u>
06107C1660E	FEMA FIRM Flood data

06107C1678E	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u>	<u>NWI Electronic Data Coverage</u>
SUCCESS DAM	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
Not Reported		

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: FRIANT

Soil Surface Texture: fine sandy loam

Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	7 inches	fine sandy loam	Not reported	Not reported	Max: Min:	Max: Min:
2	7 inches	18 inches	gravelly sandy loam	Not reported	Not reported	Max: Min:	Max: Min:
3	18 inches	22 inches		Not reported	Not reported	Max: Min:	Max: Min:

Soil Map ID: 2

Soil Component Name: COARSEGOLD

Soil Surface Texture: loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Well drained

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program

State Water Resources Control Board

Telephone: 916-341-5577

The GAMA Program is California's comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Health Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database

Source: Department of Water Resources

Telephone: 916-651-9648

California Drinking Water Quality Database

Source: Department of Public Health

Telephone: 916-324-2319

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations

Source: Dept of Conservation, Geologic Energy Management Division

Telephone: 916-323-1779

Oil and Gas well locations in the state.

California Earthquake Fault Lines

Source: California Division of Mines and Geology

The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United States Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Acorn Environmental were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

RYAN SAWYER, AICP

PRINCIPAL | PROJECT DIRECTOR

Ryan Sawyer is a Project Director with 17 years of experience preparing environmental analysis reports in compliance with National Environmental Policy Act (NEPA), ASTM E-1527, and related environmental laws and regulations. Ms. Sawyer specializes in the preparation of environmental studies for Native American tribal governments, and in particular, the preparation of NEPA compliance documents for fee-to-trust economic development projects. Her knowledge of NEPA, BIA NEPA procedures, and the expectations of staff at the BIA Regional Offices has led to a successful fee-to-trust outcome for many of her clients, including but not limited to the Table Mountain Rancheria, Tule River Tribe, Redding Rancheria and others.

YEARS OF EXPERIENCE

Over 17 Years

EDUCATION

University of California, Santa Barbara; Bachelor of Arts

Major in Environmental Studies and Geography

KEY QUALIFICATIONS

- Meets the definition of an Environmental Professional per DOI Regulations
- Led the preparation of environmental documents for more than 30 Native American Tribes, various federal, state, and local agencies, and private developers across the United States.

CERTIFICATIONS

- American Institute Certified Planners (AICP)

RELEVANT PROJECT EXPERIENCE

Ms. Sawyer currently serves as Project Director on various NEPA documents:

- Confidential Fee-to-Trust Development Project EIS and Phase I, WA
- Confidential Fee-to-Trust Tribal Government and Mixed-Use Non-Gaming Project EA, WA
- Confidential Fee-to-Trust Project EA, northern CA
- Table Mountain Rancheria, Various Fee-to-trust Projects and Phase Is, Categorical Exclusions, Fresno County, CA
- Redding Rancheria Fee-to-Trust Project EIS and Phase I, Redding CA
- Spokane Tribe of Indians Fee-Trust Project Categorical Exclusion and Phase I, WA

Prior to the formation of Acorn Environmental, Ms. Sawyer served as the primary author and project manager for more than 100 environmental impact analysis and compliance projects, including, but not limited to, the following:

- Tule River Tribe FTT Project EIS and Phase I, Porterville, CA
- Tule River Tribe FTT Housing Project EA, Tulare County, CA
- Chicken Ranch Rancheria FTT Projects (various), CA
- San Pasqual FTT Projects (various), CA
- Pauma Band 65-acre FTT Project, CA
- Tachi-Yokut Tribe FTT Projects (various), CA
- Chickasaw Nation FTT EA, Carter County, OK
- Chickasaw Nation FTT EA, Marshall County, OK
- Ho-Chunk Beloit FTT EIS, City of Beloit, WI
- Muckleshoot Emerald Downs Fee-to-trust EA, Kings County, WA

Good afternoon Edem,

I am preparing a number of Phase I ESA for due diligence investigations on some properties in Tulare County. I have attached multiple public information request forms for the following properties.

- McCarthy Ranch - Pierson

APNs 305-120-001 and 305-130-005

- Hyder-Tomato-Traylor Property

APNs 305-070-002, 305-070-012, 305-010-025, 305-010-026, 305-070-006, and 305-070-007

- King - Hartsell - Highway 190

APNs 284-760-001, 284-760-006, 284-770-005, 284-770-006, 284-770-007, and 284-760-003

- Highway 190- Road 284

APNs 282-080-004

I'm looking for any UST or hazardous material involvement at the properties in question.

Please find the request forms for the above listed properties attached.

Thank you,

--

Good afternoon, David:

I have attached copies of documents that were found for [APN 282-080-004](#). The file is also available for on-site review.

No records were found for the other APNs.

Let me know if you have any questions.

Best regards,

Edem

ALTA COMMITMENT FOR TITLE INSURANCE

Issued By:

CHICAGO TITLE INSURANCE COMPANY

Commitment Number:

FWVI-TO23001017
Amendment C

NOTICE

IMPORTANT - READ CAREFULLY: THIS COMMITMENT IS AN OFFER TO ISSUE ONE OR MORE TITLE INSURANCE POLICIES. ALL CLAIMS OR REMEDIES SOUGHT AGAINST THE COMPANY INVOLVING THE CONTENT OF THIS COMMITMENT OR THE POLICY MUST BE BASED SOLELY IN CONTRACT.

THIS COMMITMENT IS NOT AN ABSTRACT OF TITLE, REPORT OF THE CONDITION OF TITLE, LEGAL OPINION, OPINION OF TITLE, OR OTHER REPRESENTATION OF THE STATUS OF TITLE. THE PROCEDURES USED BY THE COMPANY TO DETERMINE INSURABILITY OF THE TITLE, INCLUDING ANY SEARCH AND EXAMINATION, ARE PROPRIETARY TO THE COMPANY, WERE PERFORMED SOLELY FOR THE BENEFIT OF THE COMPANY, AND CREATE NO EXTRACONTRACTUAL LIABILITY TO ANY PERSON, INCLUDING A PROPOSED INSURED.

THE COMPANY'S OBLIGATION UNDER THIS COMMITMENT IS TO ISSUE A POLICY TO A PROPOSED INSURED IDENTIFIED IN SCHEDULE A IN ACCORDANCE WITH THE TERMS AND PROVISIONS OF THIS COMMITMENT. THE COMPANY HAS NO LIABILITY OR OBLIGATION INVOLVING THE CONTENT OF THIS COMMITMENT TO ANY OTHER PERSON.

COMMITMENT TO ISSUE POLICY

Subject to the Notice; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and the Commitment Conditions, Chicago Title Insurance Company, a Florida corporation (the "Company"), commits to issue the Policy according to the terms and provisions of this Commitment. This Commitment is effective as of the Commitment Date shown in Schedule A for each Policy described in Schedule A, only when the Company has entered in Schedule A both the specified dollar amount as the Proposed Policy Amount and the name of the Proposed Insured.

If all of the Schedule B, Part I-Requirements have not been met within one hundred eighty (180) days after the Commitment Date, this Commitment terminates and the Company's liability and obligation end.

Chicago Title Insurance Company

By:

Michael J. Nolan, President

ALTA Commitment for Title Insurance (08/01/2016)

**SCHEDULE B, PART I
REQUIREMENTS**

All of the following Requirements must be met:

1. The Proposed Insured must notify the Company in writing of the name of any party not referred to in this Commitment who will obtain an interest in the Land or who will make a loan on the Land. The Company may then make additional Requirements or Exceptions.
2. Pay the agreed amount for the estate or interest to be insured.
3. Pay the premiums, fees, and charges for the Policy to the Company.
4. Documents satisfactory to the Company that convey the Title or create the Mortgage to be insured, or both, must be properly authorized, executed, delivered, and recorded in the Public Records.
5. Furnish for recordation a satisfaction or release of:

A lien for the amount shown below and any other amounts due,

Amount: \$301.88
Claimant: Eastern Tule Groundwater Sustainability Agency
Nature of Claim: unpaid charges
Recording Date: February 22, 2023
[Recording No.: 2023-008250, Official Records](#)

6. Furnish for recordation a satisfaction or release of:

A lien for the amount shown below and any other amounts due,

Amount: \$982.04
Claimant: Eastern Tule Groundwater Sustainability Agency
Nature of Claim: unpaid charges
Recording Date: May 17, 2023
[Recording No.: 2023-0022864, Official Records](#)

7. Furnish for review a copy of the constitution and bylaws of the Tribe.
8. Provide proof of authority by the Tribe to make the proposed conveyance together with the evidence of the identity and authority of the proper individuals to execute the conveyance.
9. Furnish for recordation an acceptance of conveyance from the U.S. Department of Interior, Bureau of Indian Affairs.
10. Furnish for review a limited waiver of sovereign immunity from the Tribe together with proof of authority of the Tribe to make the limited waiver of sovereign immunity.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by Chicago Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and a counter-signature by the Company or its issuing agent that may be in electronic form.

Copyright American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

**SCHEDULE B, PART I
REQUIREMENTS**

(continued)

11. Furnish for review the BIA approval of a limited waiver of sovereign immunity from the Tribe.
12. Provide evidence of the authority of the BIA representative to execute any approvals or consents.
13. The Company will require that an Owner's Affidavit be completed by the party(s) named below before the issuance of any policy of title insurance.
- Party(ies): Tule River Indian Tribe, a federally recognized Indian Tribe
- The Company reserves the right to add additional items or make further requirements after review of the requested Affidavit.
14. The Company will require, for review, a full and complete copy of any unrecorded agreement, contract, license and/or lease, together with all supplements, assignments and amendments thereto, before issuing any policy of title insurance without excepting this item from coverage.
- The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.
15. The Company will require an ALTA/ACSM LAND TITLE SURVEY. If the owner of the Land the subject of this transaction is in possession of a current ALTA/ACSM LAND TITLE SURVEY, the Company will require that said survey be submitted for review and approval; otherwise, a new survey, satisfactory to the Company, must be prepared by a licensed land surveyor and supplied to the Company prior to the close of escrow.
- The Company reserves the right to add additional items or make further requirements after review of the requested documentation.
16. If a county recorder, title insurance company, escrow company, real estate broker, real estate agent or association provides a copy of a declaration, governing document or deed to any person, California law requires that the document provided shall include a statement regarding any unlawful restrictions. Said statement is to be in at least 14-point bold face type and may be stamped on the first page of any document provided or included as a cover page attached to the requested document. Should a party to this transaction request a copy of any document reported herein that fits this category, the statement is to be included in the manner described.
17. Any documents being executed in conjunction with this transaction must be signed in the presence of an authorized Company employee, an authorized employee of an agent, an authorized employee of the insured lender, or by using Bancserv or other approved third-party service. If the above requirements cannot be met, please call the company at the number provided in this report.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by Chicago Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and a counter-signature by the Company or its issuing agent that may be in electronic form.

Copyright American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

**SCHEDULE B, PART I
REQUIREMENTS**

(continued)

18. The application for title insurance was placed by reference to only a street address or tax identification number. The proposed Insured must confirm that the legal description in this report covers the parcel(s) of Land requested to be insured. If the legal description is incorrect, the proposed Insured must notify the Company and/or the settlement company in order to prevent errors and to be certain that the legal description for the intended parcel(s) of Land will appear on any documents to be recorded in connection with this transaction and on the policy of title insurance.
19. Pursuant to Government Code Section 27388.1, as amended and effective as of 1-1-2018, a Documentary Transfer Tax (DTT) Affidavit may be required to be completed and submitted with each document when DTT is being paid or when an exemption is being claimed from paying the tax. If a governmental agency is a party to the document, the form will not be required. DTT Affidavits may be available at a Tax Assessor-County Clerk-Recorder.
20. Due to the special requirements of SB 50 (California Public Resources Code Section 8560 et seq.), any transaction that includes the conveyance of title by an agency of the United States must be approved in advance by the Company's State Counsel, Regional Counsel, or one of their designees.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by Chicago Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and a counter-signature by the Company or its issuing agent that may be in electronic form.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

**SCHEDULE B, PART I
REQUIREMENTS**
(continued)

21. The following Exclusion(s) are added to preliminary reports, commitments and will be included as an endorsement in the following policies:
- A. 2006 ALTA Owner's Policy (06-17-06).
6. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the Public Records but that would be disclosed by an examination of any records maintained by or on behalf of a Tribe or on behalf of its members.
- B. 2006 ALTA Loan Policy (06-17-06)
8. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the Public Records but that would be disclosed by an examination of any records maintained by or on behalf of a Tribe or on behalf of its members.
9. Any claim of invalidity, unenforceability, or lack of priority of the lien of the Insured Mortgage based on the application of a Tribe's law resulting from the failure of the Insured Mortgage to specify State law as the governing law with respect to the lien of the Insured Mortgage.
- C. ALTA Homeowner's Policy of Title Insurance (12-02-13) and CLTA Homeowner's Policy of Title Insurance (12-02-13).

**SCHEDULE B, PART II
EXCEPTIONS**
(continued)

21. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
22. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
23. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
24. Any encroachment, encumbrance, violation, variation or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the land and not shown by the Public Records.
25. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the Public Records.
26. Any lien or right to a lien for services, labor or material not shown by the Public Records.
27. Title is subject to all matters disclosed on the Title Status Report on file with the Bureau of Indian Affairs, whether or not the Title Status Report has been examined, certified or verified.
28. Restrictions, including any restraint against alienation, as contained in the deed or federal patent and the Act authorizing the issuance thereof, under which title is vested.
29. The Land described herein is or may be located within the boundaries of the Tule River Indian Reservation. The governmental powers and regulations referenced in Paragraphs 1 and 2 of the Exclusions from Coverage of this policy include any powers and regulations of the Tule River Indian Tribe
30. Any assertion that the acquisition by the United States in trust for the Tule River Indian Tribe Indians of California was without authority
31. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy

**SCHEDULE B, PART II
EXCEPTIONS**
(continued)

32. **CHOICE OF LAW; FORUM**
(a) Choice of Law: The insured acknowledges that the Company has underwritten the risks covered by this policy and determined the premium charged therefor in reliance upon the law affecting interests in real property under the law of the State of California and applicable to the interpretation, rights, remedies, or enforcement of policies of title insurance of the State California.
Therefore, the court or an arbitrator shall apply the law of the State of California, or to the extent it controls, federal law, to determine the validity of claims against the Title that are adverse to the insured and to interpret and enforce the terms of this policy. In no case shall the court or arbitrator apply its conflicts of law principles to determine the applicable law, nor shall the court or arbitrator apply the law of a Tribe.
(b) Choice of Forum: Any litigation or other proceeding brought by the insured against the Company must be filed only in a State court or a United States federal court having appropriate jurisdiction
33. The transaction contemplated in connection with this Report is subject to the review and approval of the Company's Corporate Underwriting Department. The Company reserves the right to add additional items or make further requirements after such review.
34. The search did not disclose any open mortgages or deeds of trust of record, therefore the Company reserves the right to require further evidence to confirm that the property is unencumbered, and further reserves the right to make additional requirements or add additional items or exceptions upon receipt of the requested evidence.

END OF SCHEDULE B, PART II

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by Chicago Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and a counter-signature by the Company or its issuing agent that may be in electronic form.

Copyright American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

COMMITMENT CONDITIONS**1. DEFINITIONS**

- (a) "Knowledge" or "Known": Actual or imputed knowledge, but not constructive notice imparted by the Public Records.
- (b) "Land": The land described in Schedule A and affixed improvements that by law constitute real property. The term "Land" does not include any property beyond the lines of the area described in Schedule A, nor any right, title, interest, estate, or easement in abutting streets, roads, avenues, alleys, lanes, ways, or waterways, but this does not modify or limit the extent that a right of access to and from the Land is to be insured by the Policy.
- (c) "Mortgage": A mortgage, deed of trust, or other security instrument, including one evidenced by electronic means authorized by law.
- (d) "Policy": Each contract of title insurance, in a form adopted by the American Land Title Association, issued or to be issued by the Company pursuant to this Commitment.
- (e) "Proposed Insured": Each person identified in Schedule A as the Proposed Insured of each Policy to be issued pursuant to this Commitment.
- (f) "Proposed Policy Amount": Each dollar amount specified in Schedule A as the Proposed Policy Amount of each Policy to be issued pursuant to this Commitment.
- (g) "Public Records": Records established under state statutes at the Commitment Date for the purpose of imparting constructive notice of matters relating to real property to purchasers for value and without Knowledge.
- (h) "Title": The estate or interest described in Schedule A.

2. If all of the Schedule B, Part I-Requirements have not been met within the time period specified in the Commitment to Issue Policy, this Commitment terminates and the Company's liability and obligation end.

3. The Company's liability and obligation is limited by and this Commitment is not valid without:

- (a) the Notice;
- (b) the Commitment to Issue Policy;
- (c) the Commitment Conditions;
- (d) Schedule A;
- (e) Schedule B, Part I-Requirements;
- (f) Schedule B, Part II-Exceptions; and
- (g) a counter-signature by the Company or its issuing agent that may be in electronic form.

4. COMPANY'S RIGHT TO AMEND

The Company may amend this Commitment at any time. If the Company amends this Commitment to add a defect, lien, encumbrance, adverse claim, or other matter recorded in the Public Records prior to the Commitment Date, any liability of the Company is limited by Commitment Condition 5. The Company shall not be liable for any other amendment to this Commitment.

5. LIMITATIONS OF LIABILITY

- (a) The Company's liability under Commitment Condition 4 is limited to the Proposed Insured's actual expense incurred in the interval between the Company's delivery to the Proposed Insured of the Commitment and the delivery of the amended Commitment, resulting from the Proposed Insured's good faith reliance to:
 - (i) comply with the Schedule B, Part I-Requirements;
 - (ii) eliminate, with the Company's written consent, any Schedule B, Part II-Exceptions; or
 - (iii) acquire the Title or create the Mortgage covered by this Commitment.
- (b) The Company shall not be liable under Commitment Condition 5(a) if the Proposed Insured requested the amendment or had Knowledge of the matter and did not notify the Company about it in writing.
- (c) The Company will only have liability under Commitment Condition 4 if the Proposed Insured would not have incurred the expense had the Commitment included the added matter when the Commitment was first delivered to the Proposed Insured.
- (d) The Company's liability shall not exceed the lesser of the Proposed Insured's actual expense incurred in good faith and described in Commitment Conditions 5(a)(i) through 5(a)(iii) or the Proposed Policy Amount.
- (e) The Company shall not be liable for the content of the Transaction Identification Data, if any.
- (f) In no event shall the Company be obligated to issue the Policy referred to in this Commitment unless all of the Schedule B, Part I-Requirements have been met to the satisfaction of the Company.
- (g) In any event, the Company's liability is limited by the terms and provisions of the Policy.

6. LIABILITY OF THE COMPANY MUST BE BASED ON THIS COMMITMENT

- (a) Only a Proposed Insured identified in Schedule A, and no other person, may make a claim under this Commitment.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by Chicago Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and a counter-signature by the Company or its issuing agent that may be in electronic form.

Copyright American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

(continued)

- (b) Any claim must be based in contract and must be restricted solely to the terms and provisions of this Commitment.
- (c) Until the Policy is issued, this Commitment, as last revised, is the exclusive and entire agreement between the parties with respect to the subject matter of this Commitment and supersedes all prior commitment negotiations, representations, and proposals of any kind, whether written or oral, express or implied, relating to the subject matter of this Commitment.
- (d) The deletion or modification of any Schedule B, Part II-Exception does not constitute an agreement or obligation to provide coverage beyond the terms and provisions of this Commitment or the Policy.
- (e) Any amendment or endorsement to this Commitment must be in writing and authenticated by a person authorized by the Company.
- (f) When the Policy is issued, all liability and obligation under this Commitment will end and the Company's only liability will be under the Policy.

7. IF THIS COMMITMENT HAS BEEN ISSUED BY AN ISSUING AGENT

The issuing agent is the Company's agent only for the limited purpose of issuing title insurance commitments and policies. The issuing agent is not the Company's agent for the purpose of providing closing or settlement services.

8. PRO-FORMA POLICY

The Company may provide, at the request of a Proposed Insured, a pro-forma policy illustrating the coverage that the Company may provide. A pro-forma policy neither reflects the status of Title at the time that the pro-forma policy is delivered to a Proposed Insured, nor is it a commitment to insure.

9. ARBITRATION

The Policy contains an arbitration clause. All arbitrable matters when the Proposed Policy Amount is Two Million And No/100 Dollars (\$2,000,000.00) or less shall be arbitrated at the option of either the Company or the Proposed Insured as the exclusive remedy of the parties. A Proposed Insured may review a copy of the arbitration rules at <http://www.alta.org/arbitration>.

END OF CONDITIONS

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by Chicago Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and a counter-signature by the Company or its issuing agent that may be in electronic form.

Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, LLC. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. This Report is provided on an "AS IS", "AS AVAILABLE" basis. **NO WARRANTY EXPRESS OR IMPLIED IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, LLC AND ITS SUBSIDIARIES, AFFILIATES AND THIRD PARTY SUPPLIERS DISCLAIM ALL WARRANTIES, OF ANY KIND OR NATURE, EXPRESS OR IMPLIED, ARISING OUT OF OR RELATED TO THIS REPORT OR ANY OF THE DATA AND INFORMATION PROVIDED IN THIS REPORT, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES REGARDING ACCURACY, QUALITY, CORRECTNESS, COMPLETENESS, COMPREHENSIVENESS, SUITABILITY, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENT, MISAPPROPRIATION, OR OTHERWISE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, LLC OR ITS SUBSIDIARIES, AFFILIATES OR THIRD PARTY SUPPLIERS BE LIABLE TO ANYONE FOR ANY DIRECT, INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL OR OTHER DAMAGES OF ANY TYPE OR KIND INCLUDING BUT NOT LIMITED TO LOSS OF PROFITS, LOSS OF USE, OR LOSS OF DATA, ARISING OUT OF OR IN ANY WAY CONNECTED WITH THIS REPORT OR ANY OF THE DATA AND INFORMATION PROVIDED IN THIS REPORT.** Any analyses, estimates, ratings, environmental risk levels, or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only an assessment performed by a qualified environmental professional can provide findings, opinions or conclusions regarding the environmental risk or conditions in, on or at any property.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available business directory data at approximately five year intervals.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.
